Project Finance International magazine honours BayernLB

Bank wins three Deal-of-the-Year awards

Munich / London – The trade magazine Project Finance International (PFI) in London has revealed the winners of its coveted annual awards for outstanding project financings. For 2010 BayernLB took home the Deal-of-the-Year award in three categories: Europe Oil & Gas, Europe Telecoms, and Middle East Power.

BayernLB acted as Mandated Lead Arranger (MLA) on these long-term financing deals. For many years BayernLB has served its customers on domestic and international project financings. The Bank can point to numerous project financings, particularly in the energy, renewable energy and infrastructure sectors, to highlight its experience and expertise.

"We are highly pleased by the awards, they confirm the success of our strategy," said Alexander von Dobschütz, head of Structured Credit. "Over the past few years BayernLB has achieved a leading position in project financing in our target sectors of energy and infrastructure."
